

\$99.00 PC Tune UP

Just like your vehicle, your computer needs regular maintenance to keep it running smoothly.

When you bring your computer in for a tune-up, we'll diagnose its problems and confirm operating system functionality to make sure your computer is operating at its highest level.

We'll diagnose, we'll optimize, we'll clean up, and we'll scan— all for \$99.00- and if your computer needs more work we'll provide a recommendation and a quote.

Are you looking for a new computer?

Tell us what you need and ask us about special orders!

Visit our office at 6488 Highway 36, just across from the post office in Joes or call us at 358-4211. We'll be happy to discuss computer repairs or a new purchase with you.
