SPEED DIAL

You can call emergency, frequently dialed, or long distance numbers just by dialing one or two number. You have the choice of selecting either a short list of eight (8) numbers or a longer list of thirty (30) numbers.

To Enter Or Change Your Speed Dialing List:

- Lift the receiver and listen for dial tone

- If you have an (8) number Speed Dial, dial *74 on a touchtone phone

- If you have a (30) number Speed Dial, dial *75 on a touch tone phone

- Dial one of the Speed Dial codes

  1. (8) number – dial any number from 2-9

  2. (30) number – dial any number 20-49

- Then immediately dial the number you wish to enter under the selected Speed Dial number. Long distance entries require (1) and the area code.

- Press the # button

- Listen for the confirmation beeps which indicate your number has been entered
